Tailored Solutions for Your Assay

Chambered Coverslips

- Up to 18 non-removable wells on a coverslip bottom
- Versatile use for different cell culture applications
- Different coatings available

Channel Slides

- Six parallel channels on a coverslip bottom
- Homogeneous cell and antibody distribution and small medium amounts
- Different channel heights and coatings available

Chamber Slides

- Removable silicone chambers on a standard glass slide
- Ideal for long-term storage
- Suitable for high-throughput screening

ibidi Mounting Medium

- Ready-to-use for immunofluorescence assays
- DAPI counterstaining and mounting in one single step; also available without DAPI
- Compatible with all ibidi labware
