

Electric Cell-Substrate Impedance Sensing ECIS™

2010 ECIS Users Meeting - Save the Date: August 24-27, 2010

The 2010 ECIS Users Meeting will take place at the Rensselaerville Institute's Meeting Center southwest of Albany, NY. The format for the meeting will be a series of twelve 30-minute seminars and fourteen 15-minute platform presentations as well as poster presentations and workshop sessions.

Ten of the seminars will be given by invited speakers. Attendees are encouraged to submit abstracts from which the remaining 2 seminars and the fourteen platform talks will be selected. The deadline for abstracts to be considered for platform presentation is June 1, 2010, and those selected will be notified by July 1, 2010.

To encourage the attendance of young scientists, ABP will award a \$300 travel grant and waive the registration fee for two doctoral students from those submitting abstracts. The awardees' abstracts will also be selected for oral presentation.

The Registration Fee for the meeting is \$500 which includes three nights lodging and all meals. Accommodations are provided for the nights of the 24th, 25th, and 26th. Meal service begins with dinner on the 24th and ends with boxed lunches on the 27th. Wednesday's dinner will be followed by the keynote address from Ivar Giaever, 1973 Nobel Prize winner in Physics, Co-Inventor of ECIS, Professor Emeritus, and CTO of Applied BioPhysics.

To register and/or submit abstracts, please contact Christian Renken by email or phone at renken@biophysics.com / 518-880-6860
